

**SECOND ANNUAL STUDENT BUILD DAY!**  
**AHS/NHS is joining with Habitat for Humanity to Build Hope for a Sacramento family!**

**Friday, April 15, 2016**  
**7:30 am to 3:30 pm**

**\*Address will be provided once team is confirmed, prior to Building Day**

***This building day project is limited to 15 students.***

***\*\*Volunteers must be at least 16 years old.***

***16/17 year olds are encouraged to bring an adult chaperone.***

***Volunteers need to provide their own transportation to the job site.***

***Carpools are encouraged.***

***RSVP to Project Coordinator Zach Coates to reserve your spot on the team, and to get on the communication list for Building Day site address, final details, etc.***  
***[zacharycoates@outlook.com](mailto:zacharycoates@outlook.com) or (916) 224-1774***

***Project Information: During last year's build day, we learned how to prep the building site and built some of the house walls from the foundation up. We also got to work side by side with the family who now lives in the home. Site was within the local area. With carpools, we were able to include all interested students, including seniors needing to complete their spring project hours. Because of the limited spaces on the team, people who RSVP are asked to make a firm commitment to attend. The success of the building day depends on having a full work crew for the entire day.***

***What to Bring on Building Day: Your own work gloves, bag lunch/snacks, water bottle, sunscreen. Optional: hat and sunglasses***

***What to Wear on Building Day: Job-site work clothes, closed-toed shoes***
